Concordia University, Montreal

Bachelor of Fine Arts in Computation Arts
September 2015 - April 2019

Completed a Bachelor of Fine Arts in the specialization of Computation Arts, where we learned how to use a variety of different technologies in a conceptual/artistic way: graphic design using Photoshop, game design and programming using Processing, 3D modeling using Blender 3D, video editing and animation using After Effects, and more.

For the end of the year exhibition of 2018, I was chosen as the head of the curation team.
